

- TERRACOTTA
- QUARRY TILE
- PORCELAIN
- STONEWARE
- GLAZED CERAMIC TILE
- ACID-RESISTANT
- NATURAL STONE

Some kinds of acid can damage the surface, metal parts and joints. Deterdek both cleans and respects the materials.

## WHAT IT'S FOR

- Removes all grout residues and building-site dirt.
- Eliminates any saline efflorescence from terracotta and bricks.
- Removes lime deposits from floors, wall tiles (showers), and bathroom fixtures.
- All-in-one descaler and detergent: contains high concentrations of surfactants.
- Removes rust stains.

## ADVANTAGES

- Does not emit fumes that are harmful to users or the environment: a welcome substitute to muriatic acid.
- Does not alter colour or appearance of the surface.
- Cleans without damaging surfaces. Does not harm aluminium or steel trims.
- Multi-purpose: terracotta, porcelain stoneware, acid-resistant stone.
- According to dilution, can be used as either a detergent or a descaler.

## HOW IT'S USED

**Dilution:** 1:5 – 1:10 depending on the amount of dirt to be removed.

**Application:**

- Wet the surface before applying the product
1. Spread the diluted product with a scrubbing machine. Floor cleaning machine or rag and leave to act for a few minutes.
  2. Clean using a single disc professional cleaner fitted the most appropriate disc (e.g.: brown for terracotta) or with a floor cleaning brush.
  3. Vacuum or wipe up residue.
  4. Rinse with plenty of clean water.

### DILUTION AND COVERAGE

**With one liter:**

Terracotta 1:5	108-215 sq ft (10/20 m <sup>2</sup> )
Porcelain	1:5 430 sq ft (40 m <sup>2</sup> )
Natural stone 1:5-1:10	215/377 sq ft (20/35 m <sup>2</sup> )

"Coverage rates are approximate and refer to a single coat of the product"

### Packaging

- 1.06 qt (1 liter) flasks in box of 12.
- 1.32 US gal (5 liter) flasks in box of 4.

#### PRECAUTIONS

- Keep out of the reach of children.
- Dispose of the container properly after use.
- Do not use **DETERDEK** on glossy or prepolished marble and in general on acid-sensitive materials (e.g. black slate).
- Before cleaning ceramic tiles, patch test a small area for resistance to the product.

#### TEMPERATURE

Storage temperature:  
between 41° F (5° C) and 86° F (30° C).  
Must be applied to material at temperatures  
between 41° F (5° C) and 86° F (30° C).

#### LABELLING

##### CORROSIVE

Warning: DANGER!

Hazard statements: CASUSES

BURNS TO SKIN AND EYES

Precautionary statements:

Product mists can burn respiratory tract and will cause burns if swallowed. Keep Out of the Reach of Children. Contains phosphoric acid.

First aid:

In case of eye contact, flush eyes with running water for 15 minutes. Get immediate medical assistance. On skin – Flush with running water. Remove contaminated clothing. If irritation persists or burns are present get medical assistance. If swallowed obtain immediate medical attention. Do not induce vom-

ting. If inhaled, remove to fresh air. If breathing is irregular or irritation persists seek medical attention.

#### TECHNICAL INFORMATION

Appearance: liquid

Odour: Pungent with floral fragrance

Density: 1.129 kg/litre

pH (10% solution): 1.5
